Thermomix® 2.7L Server

Our new 2.7L Round Thermomix® Server goes the extra mile, keeping food hot or cold for up to three hours and preventing spills with a travel strap to secure the lid. Vacuum-insulated and made of stainless steel, the versatility of this container is endless. It can even cook pasta, rice, cous cous and side dishes!

ThermoJug 650ml

Made from durable stainless steel, this double-walled insulated jug keeps sauces hotter or colder for longer. With a leakproof seal, wide mouth for easy filling from your Thermomix®, and dishwasher-safe design, it's a stylish and practical addition to your Thermal Server range.

1.2L Varoma Ceramic Dish & TM7 Varoma Trivet

The ceramic steaming dish elevates your Varoma® cooking like never before, cooking just like your oven, but using less energy and locking in all the flavour and juicy goodness. The stainless steel trivet lifts your steam cooking to maximise circulation for tender, juicy, nutrient-rich results.

TM7 Stainless Steel Varoma Tray & Varoma Tongs

A divided steaming tray that opens more possibilities in your Varoma®. Keeps the seriously juicy goodness in your dish and separates anything fussy diners won't eat. The grippy and gentle steamer tongs with silicone tips lift, turn and serve foods with slip-free ease. Safely lifts the hot tray from the Varoma.
